Tech Stack

AI/ML Frameworks & Libraries
PyTorch, TensorFlow, Keras, Scikit-learn, Deep Learning, LLM, Reinforcement Learning,

Technologies
Docker, Git, Linux/Unix, Bash, Language Server Protocol , SQL and Graph Databases (neo4j, GraphQL) . HPC cluster with SLUM and OAR jobs

Programming Languages
Python, Java, C, C++, SQL, HTML, CSS, Ruby, ocaml

Hobbies

Data, Electronics & Robotics (DIY, hacking, tinkering), Video Games, Windsurf

Nathan Fitger

Master's Student in Artificial Intelligence at the University of Bordeaux

Cureently looking for a job or PhD in AI. I am eager to leverage my technical skills and curiosity to take on new challenges. My previous experiences as an AI intern in a startup, IT infrastructure manager, have strengthened my teamwork, adaptability, and proficiency with various tools and programming languages.

Education

- **Master's Degree in Artificial Intelligence**
  From 2024 to Apr. 2026 University of Bordeaux Bordeaux
  Specialization: Advanced Databases and Network Science
- **Bachelor's Degree in Computer Science**
  From 2020 to 2024 University of Bordeaux Bordeaux
- **Web Developer Bootcamp**
  From Sept. 2021 to Nov. 2021 Le Wagon Bordeaux

Projects

- **Multi Experts peptides pipeline.**
  2026 University Bordeaux
  Multi-Expert Peptide Pipeline is a proof-of-concept for in silico peptide design with a multi-agent workflow. github.com/Roirtur/multi-expert-peptide-pipeline
- **TE AI CUP (Time series AI model)**
  From Nov. 2025 to Apr. 2026
  Plating anomaly detection in production chain using time series analysis AI model
- **ApiDays 2025 AIThinkers Hackaton**
  Dec. 2025 Paris
  MCP on Graph databases (neo4j stack) Based on data extracted from DocGen_LLM
- **DocGen_LLM**
  2025 Open source project (maintainer/creator)
  Automated code documentation generation for legacy/undocumented codebases (agnostic and privacy oriented).

Work experience

- **Ai Internship**
  From Apr. 2026 to Oct. 2026 Beepfake - Inria Stratup Studio Bordeaux
  Beepfake - poisonning media (voice,image etc...) to prevent AI impersonnation. Building the core of the startup (benchmark pipeline and models based on researchs.)
- **AI Internship**
  From May 2025 to July 2025
  Gertrude.fr – Intelligent Transportation Systems Bordeaux
  Developement of DocGen_LLM, Contributed to AI research projects on urban traffic.
- **Robotics, Coding Instructor & IT maintainer**
  From 2019 to 2025 Jeunes-Sciences Bordeaux Bordeaux
  Taught and guided youth (8–17) in hands-on robotics and computer science activities. Managed and maintained IT infrastructure for the association.
- **Seasonal Work in Hospitality**
  From 2021 to 2024 Eklo, Heiko, Island Poke Bordeaux
